Our expertise at work for you

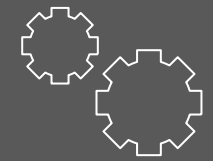

CONNECTING THE COMMUNITY TO OUR RESEARCH & TEACHING EXPERTISE

The Faculty of Dentistry at The University of Hong Kong has a strong tradition of public and professional education and community engagement. We are well positioned in partnering with stakeholders to deliver world-class dental education, research, and health care. Many of our staff come from abroad, have extensive international experience, and are globally renowned in their fields for being at the leading edge of science, technology, health care, and education. To find out more about our staff's expertise, please log onto: <http://facdent.hku.hk/index.php/about-us/staff-surname>

“ The HKU Faculty of Dentistry is Hong Kong's sole provider of undergraduate and postgraduate dental education, and the only dental faculty in China that uses English as the medium of instruction. Formally established in 1982, the Faculty quickly earned an international reputation and it is now one of the top dental schools in the world ”

Prof Thomas Flemmig
HKU Dean of Dentistry

LINKING WITH THE COMMUNITY

We instil a keen sense of community service and public health promotion in all our staff and students. Our training programmes and research areas are designed to have a strong element of knowledge exchange and community awareness, outreach, and participation.

OUR DISCIPLINE AREAS

- COMPREHENSIVE DENTAL CARE (including Endodontics and Family Dentistry)
- ORAL & MAXILLOFACIAL SURGERY
- ORAL BIOSCIENCES
- ORAL DIAGNOSIS & POLYCLINICS (including Oral Medicine and Oral Radiology)
- ORAL REHABILITATION (including Dental Materials Science, Dental Technology, and Implant Dentistry)
- PAEDIATRIC DENTISTRY & ORTHODONTICS
- PERIODONTOLOGY & PUBLIC HEALTH

Partnering with the Community

KNOWLEDGE IN ACTION

Our Knowledge Exchange Hub, consisting of the Knowledge Exchange Unit, Education & Media Technology Unit, and Postgraduate Education & Continuing Dental Education section, was set up in 2009 to coordinate two-way contact between the Faculty and various sectors of society, and to administer or assist with tailored health, research, and knowledge exchange programmes, such as:

- Postgraduate & continuing dental education courses
- Newsletter, brochures & special publications
- Formulating research & partnership proposals; promoting training and consultancies
- Embedding knowledge exchange into all Faculty activities; organising internships, mentorships, and service projects
- Media & public relations, marketing & branding
- Public engagement & outreach programmes; fund- & friend-raising

DISCOVERY & INNOVATION

Our Faculty uses a **matrix management model** to ensure an integrated and multidisciplinary approach to achieve synergy, collaboration, and cross-fertilisation of ideas. In this way, we maximise a research idea's potential academic, public health, and commercial impact at all stages, from proposal to publication and application.

CONNECTING KNOWLEDGE, SKILLS, PROFESSIONALISM & COMPASSION

For highlights of our knowledge exchange activities with various sectors of the community, including schools, public, NGOs, charities, industry, health care professionals, alumni, and prospective students, please log onto: <http://facdent.hku.hk/index.php/engagement>

EQUIPPED FOR SUCCESS

Our **world-class facilities** include a Problem-based Learning Suite, Virtual Reality (Haptics) Training Unit, Centre for Advanced Dental Care, Advanced Endodontics Centre, Cleft Lip and Palate Centre, AO Cranio-maxillofacial Surgical Training Centre, ITI Centre of Excellence in Implantology, and Centralised Research Laboratories. These use a wide array of state-of-the-art methods, such as artificial mouth system, confocal microscopy, operative microscopy, computer-assisted design and manufacture, 2-D and 3-D photo-imaging, spiral and cone-beam computed tomography, structural-testing, cell and tissue culture facilities, and micro-organism identification and antibiotic susceptibility testing—all available and ready for collaborative educational and basic, clinical, translational, and applied research projects.

KNOWLEDGE CREATION, ACCESS & SHARING

Our researchers are among the top in the University for research publications in peer-reviewed academic journals. We support Open Access Publishing and have a thorough programme of knowledge exchange and dissemination of research and health care information to all sectors of society.

TRAINING, CONSULTANCY & SERVICE

We have a comprehensive range of disciplines and teaching and research areas. Our combined expertise, knowledge, and know-how are designed to meet the diversified needs of the academic, professional, commercial, government, and public communities. For more information, e-mail us at dentke@hku.hk
